

# A special education school that will reshape the future of students is coming to Niles in the fall of 2023

## Charles H. Walsh Sr. Academy and Career Tech High School

Charles H. Walsh Sr. Academy and Career Tech High School or Walsh Academy at 6935 W. Touhy Ave. (formerly Niles Elementary School South) is coming to Niles in the fall of 2023. It will continue Maryville Jen School's founding vision of preparing special education students, ages 14-22, to enter high-demand trades and be college-ready for a successful future.

Walsh Academy's comprehensive curriculum will be offering academics, integrated social-emotional learning and career technical educational instruction. It will develop strong partnerships with contractors, union organizations and local school districts to create internships and job opportunities for the students in their communities.

For more information, please contact Anne Craig, director of educational services, at [CraigA@jenschool.org](mailto:CraigA@jenschool.org)
